

# Patina collection

**Composition:** Woven, Bamboo, Acrylic and Cotton

The fine flatweave construction of the Patina collection gives a stunning silken shadow effect, where the surface plays with the light, and from differing angles creates shading and colour changes. We recommend the rug be turned in situ to assess the best position for room light source to bring out the desired effect in design and colour.

**Sizes:** 2.30m x 1.60m, 2.90m x 2.00m, 3.40m x 2.40m
